

Share your vision of the crafts of GIFU!

Gifu prefecture, which is located 400km west of Tokyo, has a wide variety of unique crafts and foods. Some are world renowned, for example, the cutlery produced in Seki-city has been exported to the U.S. and Southeast Asia since before the outbreak of World War II.

We would like more people overseas to know about our craftsmanship which we hope may enrich their daily lives. To reach this goal, many craftsmen are eager to hear your opinions about their crafts. Whatever advice you have will be very useful for them! This may also be a good opportunity for you to learn more about Japanese culture. You will be welcomed with delicious SAKE and traditional foods!

Please do not miss this exciting experience!
